

A close-up photograph of the Kodak NexPress M700 Digital Color Press. The machine is white with a blue horizontal stripe. The Kodak logo is printed in red on the top surface, and the model name 'NexPress M700 Digital Color Press' is printed in grey below it. A yellow triangular graphic is overlaid on the left side of the image.

**Kodak**

## NexPress M700

Digital Color Press

### Power your growth

The digital color market is exploding. Your clients are demanding personalized, high-impact documents to help improve their bottom line. And you're ready to jump into the on-demand color space and grow your business to new levels.

The new **Kodak NexPress M700** Digital Color Press provides the power to do just that. Designed to meet the demanding needs of the graphic communications market, the M700 Press can help you exceed your current clients' expectations for quality and performance—and acquire additional clients by developing new applications.

Personalized direct mail, marketing collateral, business documents and photo books are just a few of the applications that will drive new business and keep your clients coming back.

Go for color. Go for growth.

### Color with confidence

It's critical to your success to efficiently produce color documents with excellent image quality using an integrated workflow.

The M700 Press has the features and capabilities to enable you to confidently produce color documents that will distinguish your business from others.

- ▶ Productive, four-color press that runs at 70 pages per minute
- ▶ Innovative imaging process that delivers high density, wide color gamut and excellent paper-to-image gloss matching
- ▶ Dual-fusing system that enables mixed media throughput and printing on heavy substrates at rated speed
- ▶ Scalable **Kodak NexStation** Front End built on open architecture that seamlessly accepts file formats from commonly used application software

### Drive your success

The M700 Press offers a unique business model that helps you manage your profitability through a high level of operator serviceability. The press is designed with operator replaceable components, enabling you to maximize uptime, manage image quality, and control costs.

In addition, dedicated specialists are available through **Kodak MarketMover** Business Development Services to develop and implement marketing programs designed to help you optimize your return on investment and achieve dynamic business growth.

When you've successfully grown your business and you're ready to take on greater print volumes and new capabilities, Kodak has a full line of digital production presses to take you to the next level.

### Base configuration

4-color print engine  
2 internal feeders  
1 feeder module with 3 feeders  
1 high-capacity delivery

### Kodak NexStation Front End

### Printing speed

| Format    | 4/0<br>(single sided)         | 4/4<br>(double sided)         |
|-----------|-------------------------------|-------------------------------|
| A4        | 70 ppm                        | 65.4 ppm                      |
| Letter    | 70 ppm                        | 64 ppm                        |
| A3        | 36 ppm<br>2160 sheets per hr. | 36 ppm<br>2160 sheets per hr. |
| 11x17 in. | 35 ppm                        | 35 ppm                        |
| 12x18 in. | 33.1 ppm                      | 33.1 ppm                      |

### Imaging technology

Dry electrophotography, 1200 x 1200 dpi  
Laser imaging technology  
256-level grayscale  
Screens: graphics, images, and text

### Maximum imageable area

323 x 482.7 mm (12.71 x 19 in.)

### Substrate format

Maximum sheet size: 330.2 x 487.7 mm (A x B) (13 x 19.2 in.)  
Minimum sheet size: 182 x 182 mm (A x B) (7.16 x 7.16 in.)

Dimension A (min-max) 182 to 330.2 mm (7.16 to 13 in.)

Dimension B (min-max) 182 to 487.7 mm (7.16 to 19.2 in.)

### Substrates

Uncoated and coated papers with various glosses and finishes  
Selected tabs, transparencies, labels, pre-punched and perforated papers, and specialty stocks

### Paper weight

64 to 300 g/m<sup>2</sup> (17 lb. bond to 110 lb. cover)

### Paper feeding\*\*

Five feeders with a total capacity of 6000 sheets  
Two 1000-sheet internal feeders  
Feeder module with two 1000-sheet feeders and one 2000-sheet feeder

Note: all feeders support the full range of paper sizes and weights

### Paper delivery\*\*

High-capacity delivery with total capacity of 6000 sheets  
Main delivery — 5000 sheets  
Proof delivery — 1000 sheets

### Paper cart

### Dimensions of base configuration (LxWxH)

4415 x 992 x 1305 mm (14 ft. 5.8 in. x 3 ft. 3.1 in. x 4 ft. 3.4 in.)

### Weight of base configuration

1560 kg (3432 lb.)

### Options/Accessories

Additional node for **Kodak NexStation Front End**  
Additional paper cart  
Operator table with light

\*Primary measurements are in metric units. Conversions to U.S. units have been rounded.

\*\*Capacity measured with 80 g/m<sup>2</sup> paper (20 lb. bond)
